

703 Flat Track Delivery

The 703 is a variation of the 701 delivery system. This machine utilizes the same batching process as the 701, allowing for highly efficient batch deliveries. With its wide transport belt, the 703 is able to maintain a high level of product control - making it ideal for small format products.

Features & Benefits

- For use inline with presses or as part of an offline/near-line web finishing solution
- Compatible with MBO and Herzog+Heymann finishing modules
- Independent self-control allows operators to set speeds separately from other units if desired
- Capable of multi-up production
- Robust components capable of withstanding a 24/7 commercial print environment
- Available in a wide range of working widths to best fit a variety of job applications
- OPTIONAL: Table extension to allow for more product along the delivery table

*All features are subject to change without notice.

Multiple solutions to help you grow your bottom line.
