

XS 300 Knife Folding Unit

The XS 300 is a knife folding unit that has many MBO features. The knife on this machine features a kicker for batching and a back stop which adjusts location in order to reduce cycle times. After the knife fold process, paper can be fed out to the left or right side in order to suit a wide range of configurations. The XS 300 also comes with a vertical delivery cassette and a belt transfer cassette which are interchangeable depending upon the unit's position within a production line.

Standard Features

- Touch screen display
- Pneumatic knife
- Integrated kicker
- Vertical delivery cassette
- Belt transfer cassette
