

PERFORMANCE MAINTENANCE PLANS

Designed to optimize the performance of your equipment and significantly reduce downtime, MBO Performance Maintenance Plans are an essential component in maintaining peak production performance all year long.

Because of the wide range of MBO finishing modules on the market, each Performance Maintenance Plan is tailor-made to fit the needs of your specific equipment. This means that you only get what you need and none of what you don't. All past and current MBO, Herzog+Heymann, and Bograma finishing modules are eligible for an MBO Performance Maintenance Plan which provides the following:

- Bi-Annual or Quarterly scheduled machine service predetermined by the customer and MBO on a 2-5 year contractual basis
- General Inspection from a Factory Certified MBO Service Technician
- 10% discount on all parts ordered during a Performance Maintenance visit*

*Tri-Creasers, Spiral Fold Rollers, and Rebuild Kits are not eligible for discount.

ADDITIONAL SERVICES AVAILABLE:

- Clean/change filters
- Inspection of safety covers and safety switches
- Inspection and cleaning of fold rollers
- Fold roller calibration (Automated machines)
- Clean, lubricate, and adjust chains
- Inspect roller hangers, springs, bearings, and belts
- Drive, wheel, and belt adjustments
- Fold plate component inspection

*Services available vary depending upon the equipment
