

ASP Series Mobile Shingled Stream Delivery

The ASP Series is a mobile shingled stream delivery system with an integrated pressing station designed for use in a wide range of commercial print applications. All variations of the ASP delivery are equipped with an independent self-control feature - making it compatible across all MBO finishing modules in the offset and digital print environments.

Features & Benefits

- For use inline with presses or as part of an offline/near-line finishing solution
- Integrated pressing station at the infeed for improved signature quality
- Product delivered via a shingled stream for easy handling along the delivery table
- Integrated marking device to stagger completed batch counts based on operator input
- Robust components capable of withstanding a 24/7 commercial print environment
- Fast make ready and convenient delivery make this machine ideal for a wide range of commercial print applications

*All features are subject to change without notice.

Multiple solutions to help you grow your bottom line.
