

P 46 Mobile Pressing Station

The P 46 is a mobile pressing station from MBO designed as a supplement to deliveries that do not have an integrated press. Because it is compact and mobile, the P 46 is also ideal for complex productions requiring multiple pressing stations. Thanks to MBO's modular approach to finishing, the P 46 Mobile Pressing Station can be used in a variety of configurations and is compatible with a wide range of MBO and Herzog+Heymann finishing modules.

Features & Benefits

- Compact and mobile for easy setup and operation
- Top and bottom conveyor belt system allows superior product control at infeed
- Compatible with a wide range of MBO and Herzog+Heymann finishing modules
- Independent self-control allows operators to set this unit to a different speed from the rest of the line, it also allows the operator to integrate the P 46 Mobile Pressing Station into any system
