

## Invitation to the Alliance Days

Dear Sir or Madam,

The countdown for the Alliance Days is running. From 24 November 2020, you will have the opportunity to explore the world of the Postpress Alliance for four days. The companies Baumann Maschinenbau Solms, Bograma, H+H, Hohner, MBO Postpress Solutions, Perfecta and Wohlenberg will be presenting their latest innovations in the fields of cutting, folding, die-cutting, perfect binding, saddle stitching, mailing, outsert and connectivity.

LET'S **CONNECT VIRTUALLY!**

**ALLIANCE DAYS –**  
THE VIRTUAL EXPERIENCE  
FROM **Nov. 24-27, 2020**

THE POSTPRESS ALLIANCE  
we connect.

COUNTDOWN:

DAYS	HOURS	MINUTES	SECONDS
19	16	4	17

## This awaits you

### Virtual platform

On the website [www.postpressalliance.com](http://www.postpressalliance.com) you will find the virtual booth of the Postpress Alliance from 24 November, 2020. Here you can navigate between the individual brands and get to know the machines of the Alliance partners. Exclusive background information such as animations, videos and graphics can be called up for each machine.

In addition, information on the subject of „connectivity from pre-press to post-press“ is available on the virtual platform and you have the opportunity to book live demonstrations.

The virtual platform will remain in place after the event. To use the platform, you can register now at [www.postpressalliance.com](http://www.postpressalliance.com).

### 1-to-1 live demonstrations

All machines that can be discovered on the virtual platform are also physically located in the showrooms of the respective Alliance partners. Between 24 and 27 November you have the possibility to book individual live demonstrations for these machines. The demonstrations will take place 1-to-1, exclusively for you. The booking of the demonstrations is also possible via the virtual platform of the Postpress Alliance: [www.postpressalliance.com](http://www.postpressalliance.com). After your booking you will receive an invitation to a video conference, so that you can follow the demonstration conveniently from your office.

If you would like to visit us personally during the Alliance Days, please contact us. We will find a solution!

# Exhibition programme from MBO

## CoBo-Stack

### Configuration:

- 2 combi folding machines (K8 and K8RS) installed opposite each other
- 2 KT90 curved tables
- 2 A80 stacking deliveries
- 2 CoBo-Stacks

We will show you how only one operator can handle two folding machines simultaneously with the help of modern robot technology. In this way you will double your cycle times and reduce the physically demanding work.

In addition, we will present our new A80 delivery with its universal operating concept. The new control- and operating philosophy ensures that the machine can be controlled at each individual machine display. For example, the folding machine can be operated from the delivery and vice versa.

The CoBo-Stacks and the K80 are located in the MBO showroom. If you would like to book a live demo, you may find the machines in the booking tool at [www.postpressalliance.com](http://www.postpressalliance.com) under the brand name „MBO“.

## K80

### Configuration:

- K80 combi folding machine
- SBAP46 delivery

The K80 is our workhorse with excellent price-/performance ratio. The new feeder head VacuJet is integrated which has a frequency of up to 25,000 cycles per hour. Many features are already included in the K80 as standard, such as the slitter shaft cassette, the S-KTL configuration and sheet alignment by vacuum belts (VIVAS). Automated buckle plates and fold rollers are available as an option.

## Connectivity

We have prepared various charts and videos for you on the subject of „connectivity“. You also have the opportunity to contact our connectivity experts at MBO and medianetics (a company of the Baumann-Group) directly. The experts may be found in the booking tool at [www.postpressalliance.com](http://www.postpressalliance.com) under the keyword „Connectivity“.

You can look forward to these topics:

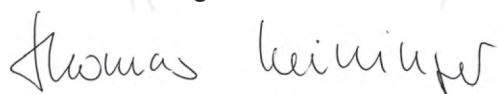

- KP Connect, the MIS solution – presented by medianetics
- Multipress, the leading MIS/ERP software solution for the graphics industry – presented by medianetics
- aepos, the prepress workflow that covers everything – presented by medianetics
- MBO Datamanager, the link between MIS and finishing machines – presented by MBO

## Your contact persons

We look forward to welcoming you to the Alliance Days. If you have any questions, please do not hesitate to contact us at any time.

With kind regards,

Thomas Heininger
