Fold School Class Description

The MBO Fold School course lasts three days, usually from a Tuesday to Thursday. We like to keep the classes small to make sure proper instruction is received. At the end of the course, students will receive an MBO America Certificate of Proficiency.

Basic Course

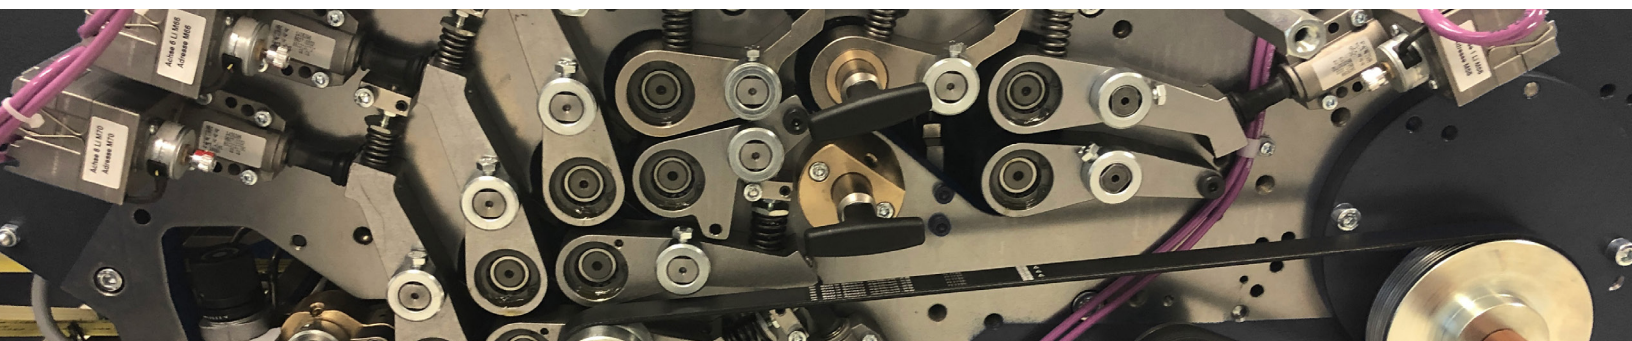

Our basic course is designed to teach the fundamentals of the Folding machine. The curriculum includes studying the art of folding paper. Thoroughly covering the actions of the paper as it travels unseen inside the folder. Setting up the most basic folding applications at first, progressing onto more advanced applications. The hands-on training provides the basic essentials that makes up every competent folder operator.

Advanced Course

This course is for the more experienced operator. The curriculum includes a basic review of folding and machine operating principles advancing to an overall deeper discussion relating to the art of folding and its applications. The advanced course is designed to improve the efficiency in slitting, center bleed trimming, edge trimming, perforating, creasing, double gate folding and more.

Tuition

- \$750 per student for Basic and Advanced Courses
- \$1,000 for custom courses (digital, pharma, diecut, etc.)
 - Minimum 3 students per class
 - Scheduled at customer request based on MBO service availability

Fold School Schedule 2023

March 7-9: Basic Class

June 6-8: Basic Class

May 9-11: Advanced Class

TBD: Advanced Class
